

Pro-curo Software Ltd

Looking after you and your samples

The company....

Pro-curo Software Ltd is a supplier of sample inventory and tracking software into the life science markets, with high focus on providing technical support to our users via a telephone help-desk, internet forums and blogs along with other social media feeds.

What makes us different....

We are focused on looking after our customers and their samples in a way that no other software supplier is offering. We offer two versions of support contract each having a list of features that offer the appropriate level of support you need.

The software....

Pro-curo is the perfect software to create and manage a complete auditable system. Using integrated label design and printing functions unique barcodes are generated which can then be used within a powerful barcode run transaction system.

The features....

- Fully FDA CFR 21 part 11 Compliant software
- Multi-level security control
- Graphical grid view of box location
- 128bit database encryption algorithm
- Different user definable fields for each project
- Powerful multi-level location structure
- Split samples at the click of a button
- Book in and book out functions
- Automatic printing of data matrix bar codes
- Powerful search functions
- Complete history of every transaction for traceability
- Customisable user fields
- Attach documents to a sample such as patient consent forms
- My Samples area for your own personal collection
- Supports 2D barcoding and RFID identification systems
- Portable application for Pocket PC or Win CE device
- Compatible with iPad 1st 2nd 2nd generation and Android based tablets
